

## WebCT

You have access to a OneKey course through WebCT. The access code for this is bundled in your new textbook.

OneKey gives you access to premium (protected) resources, like *ActiveBooks* and *Research Navigator*. You need the access code from the book to register to this service. You will need to log in to your instructor's course and then register the OneKey code.

**An important part of being able to access the ActiveBook** (online eBook version) of your textbook is that you must allow cookies in your browser.

## when you lose your password

> there is a lost your password reminder below the OneKey log in screen.

## buy an access code

> purchase the access card at the bookstore. eCommerce on this product is available later in 2006.

## tech support

## WebCT

### What you'll need:

WebCT is part of your school's information technology network. If this is your first WebCT course then you may need to check with your school's Help Desk to learn more about using WebCT on your campus. The course information you'll need for your OneKey WebCT course may have already been sent to you by your school, or you can obtain it from your instructor or campus WebCT administrator.

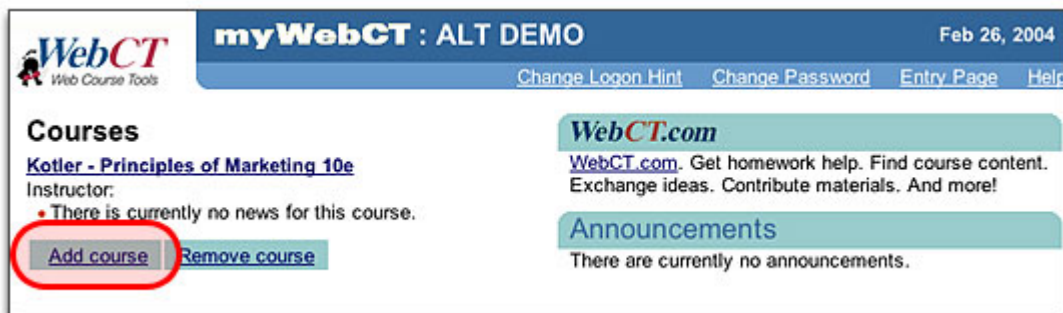

- The **Internet address** (URL) where your college hosts its WebCT courses.
- Your personal **WebCT login name and password**. If your WebCT account has already been set up for you by your school, you'll need your WebCT login name and password. Some schools allow you to set up your own WebCT account, if this is the case you can click the "Create my WebCT" link and follow the instructions for creating an account.

Open your web browser and use the information above to go to your WebCT account and log in.

Go to your OneKey course and register for your premium resources.

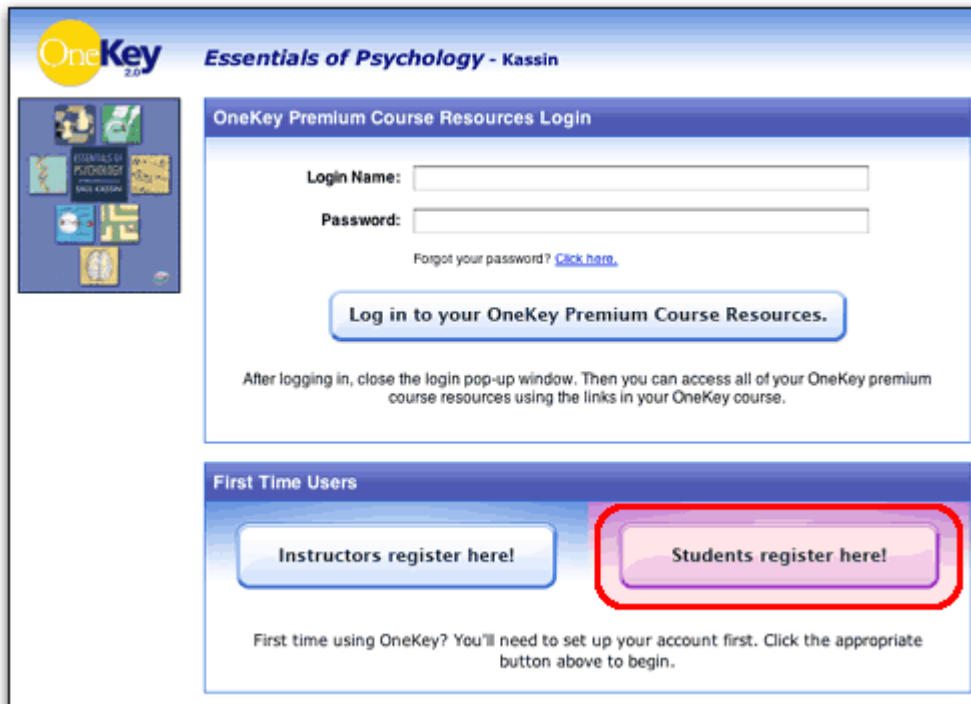

1. Enter the Course. After logging in to your WebCT account, you may find that you have already been enrolled in your OneKey course by your institution. If so, the course name provided by your school appears on your MyWebCT page. Some schools allow you to self-enroll in a course. If this is the case you can click "Add Course" on your MyWebCT page. Find your course as specified by your school or instructor on the Course Listing page, click "Register", and the course is added to your MyWebCT page.

2. Redeem your access code. Inside your OneKey course click the Start Here! button.

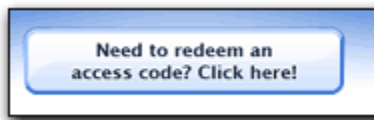

This will open the OneKey login screen in a new browser window. To register, click on "Students register here!" under "First Time Users."

3.

On the following page, you will have two options:

**Option 1: Need to redeem an access code?** If you already have an access code, click this button to enter your account information and access code. Locate this code inside your OneKey Student Access Kit card for use with Blackboard that came bundled with your new textbook.

### You're Ready to use your OneKey Premium Resources!

Now each time you enter your WebCT course, click the **Start Here!** button and log in by providing your login name and password from your OneKey registration. After logging in you'll be approved to access all the great OneKey learning resources.
